

WHAT CAN I EXPECT?

Patients can expect to feel a heating sensation during treatment. Results can be felt and seen immediately, with continued results over the following weeks or multiple treatments.

WHAT IS THE DOWNTIME?

Depending on the intensity of the treatment, there is little to no downtime. Most patients may have slight discomfort during and immediately after treatment. Some patients will experience no discomfort at all.

HOW MANY SESSIONS ARE REQUIRED?

Your physician will determine the best treatment plan for you. The majority of patients have 2-3 sessions, however, most notice a difference after only 1 treatment. The number of sessions depends on your treatment concerns, your personal goals, and if you plan to use a combination treatment or a single treatment approach.

If you're ready to improve your feminine health and quality of life, find a physician near you to discuss your treatment options.

Votiva offers immediate results, with continued improvements over time.

VOTIVA

YOUR NUMBER ONE CHOICE FOR A SAFE AND EFFECTIVE TREATMENT FOR FEMININE HEALTH & SEXUAL DYSFUNCTION

Previously, women did not have many options to improve intimate issues that occur from childbirth or aging.

Now, with new technologies available, women have more options to resolve their discomfort. There are new choices that are effective, easy and painless.

The time has come for a safe and effective treatment that is quick and comfortable. Votiva offers solutions that address internal and external vaginal health concerns, with clinically proven feminine wellness technologies.

ADVANCED RENEWAL FOR FEMININE WELLNESS

“Before Votiva it was hard for me to really enjoy being intimate. I simply didn’t feel a lot. After I had Votiva, I was more sensitive and was fulfilled every single time. Both me and my partner can notice the difference and we are both thrilled.”

- THERESA, PATIENT

Fast, Gentle and Effective

COMMON FEMININE HEALTH CONCERNS:

- Laxity and wrinkled appearance of the labia and vulva
- Low blood flow and sensitivity
- Pain sensation caused by labial hypertrophy
- Level of sexual interest and self-esteem
- Weakening of the vaginal muscles

WHAT IS VOTIVA?

InMode’s Votiva system is a safe, effective treatment for feminine health that offers immediate results with continued improvements over time.

HOW DOES VOTIVA WORK?

Votiva uses up to two complimentary technologies to address the internal and external areas of discomfort or concern.

- **FormaV** – Gentle thermal tissue remodeling
- **FractoraV** – Fractional radio-frequency contraction

During a pre-consultation, your physician will speak to you regarding your concerns and expectations. At this time, they will develop a tailored treatment plan that can include either internal or external treatment, or both.

Please speak to your aesthetic provider to see if Votiva is right for you.
